

JOGGING

BRPA

Automatic Jogger Type BRPA

Increase of productivity through networking of working processes

EUROCUTTER® Cutting Systems do not only make work easier, but also increase productivity.

Increase of productivity by precise alignment

To increase quality and maximize output quality, jogging is an important feature. With EURO CUTTER Automatic Joggers, the printed sheets are precisely aligned to guarantee exact preparation of the printed sheets. Due to heavy duty machine frame construction, both high impact strength and short jogging times are guaranteed even for difficult materials.

Characteristic features BRPA

Table surface in stainless steel

Including air nozzles in table and both side lays

Automatic, pneumatically tilting side lays on both sides

Table inclination left / right

Adjustable for 3 positions in each direction

Infinitely adjustable jogging power

Direction of jogging engine

Clockwise or counter-clockwise turning selectable

Blower air ON/OFF selectable during jogging

Air ON only when loading / unloading, always ON or always OFF

Motor driven press roller unit

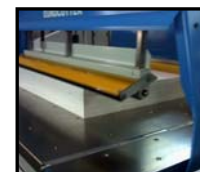

Frequency controlled press roller unit with adjustable speed and pressure

Intermittent air removal in tilted jogging position

Clamp for press rolling unit

Air removal with one open side lay (oversized format)

Number of press rolling operations selectable (0,1,2)

Gauge for press rolling pressure
Adjust the pressure for main pressing

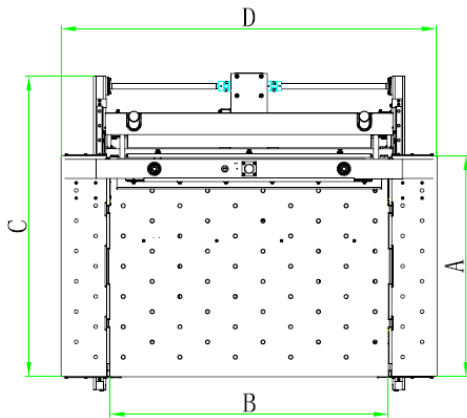

CE-Norm

OPTIONAL BRPA

- **Hydraulic Jogger** Table tilt infinitely adjustable
Including operating panel with display and error messages
Timer function, energy saving mode, storing of up to 10 jobs including all jogging parameters
- Quantification with weight/counting system
- Flaps for gripper system
- Material unloading to the rear (Type BRPA-H)
- Multifunctional press roller jogger equipped with separating gauge (Type BRPA-T)
