

# FSA 1060 Foil Commander

## *The facts*

### General data

- Sheet format: max. 1060 x 760 mm/  
max. 41.7" x 29.9"
- Sheet format: min. 460 x 350 mm/  
min. 18.1" x 13.8"
- Material thickness: max. 2 mm, min. approx.  
80 g/m<sup>2</sup>, max. 0.08"/min. approx. 0.003"
- Stamping area: max. 1030 x 730 mm/  
max. 40.6" x 28.7"
- Heating zones: 16, individually controllable
- Temperature adjustable up to: 170 °C/340 °F
- Pressure of the press: max. 350 t/max. 385 US tons
- Selectable dwell time under pressure
- Speed: max. 8000 strokes/h
- Foil feeds: 3 to 6 longitudinal and 1 to 2 transverse
- Foil webs: max. 11
- Hologram controllers
- Foil core diameter: 3" and 1"
- Foil reel diameter: 300/350 mm/11.81"/13.8"
- Foil width: max. 1040 mm, min. 10 mm/  
max. 40.9", min. 0.39"
- High-performance baling press for waste foils
- Touch Screen machine control
- Press Co-Ordinator – remote machine access
- MES Manufacturing Execution System

### Sheet feeder

Pile height: max. 1750 mm / 68.9", non-stop function, automatic suction head height adjustment, pile centring, early sheet check, electro-mechanical double-sheet check, stream feeding with sheet deceleration, suction belt table.

### Sheet register

Conventional sheet register with 4 front and 2 pneumatic side lays, including check-adjustable during operation or SMART Register with sheet alignment in the longitudinal and transverse direction reading print marks or sheet edges.

### Sheet delivery

Pile height: max. 1500 mm/59", autom. non-stop function

### Dimensions and weights

Weight: approx. 29.8 t / 33 US tons,  
Base area: approx. 8.05 x 5.8 m / 26.4' x 19',  
Height: max. 3.75 m / 12.3'

### Gietz Services around the globe

#### Quality guarantees

All Gietz-machines are provided with guarantees for functionality and material quality. The FSA 1060 Foil Commander has a long service life. The basis for this is the solid technology, which can be relied on at all times. This is proven by the fact that, as a result of the high production reliability and the performance of the machine, numerous customers have ordered a second, or even a third machine within a short time of purchasing their first FSA 1060 Foil Commander.

#### Gietz-Service – Security in every case

In order to guarantee the highest possible availability of the machine over decades, we would recommend the consideration of a service contract. The remote service analysis is a component part of this.

#### Global After-Sales Service

Gietz-machines require a minimum of regular servicing, as the experience of millions of operating hours has been integrated into every machine. For this servicing, you can rely on Gietz and its international partners at all times. This is also the case for the availability of customer service, the rapid arrival of service technicians and the prompt delivery of spare parts – all of which are a matter of pride for us. More than 30 000 different items are in stock. This applies for all Gietz-machines, even if they were purchased many years ago. Service work is only carried out by technicians who have been trained in our factory in Switzerland. You can thereby rely on their specialist capabilities at all times. Gietz and its partners are always there for you, both today and tomorrow.
